| Action | I. December 9, 2021 Meeting Minutes  
Action: Members will vote to approve or amend the minutes. |
| Discussion/Action | II. Defining Online, Hybrid, and On-Campus Courses  
Issue: The Subcommittee has been asked to draft a policy defining online, hybrid, and on-campus courses. The draft policy is available as a Google Document and the link was shared via email.  
This is a draft policy and should not be discussed or released beyond the conversations with SCPA representatives until it has been vetted by appropriate stakeholders.  
Presented By: Chair Holton  
Proposed Action: Members will vote to approve or reject the draft policy. |
| Discussion | III. Evaluation of Units Assigned to UCI Courses  
Issue: Credit for academic work undertaken at the University is evaluated in terms of units. As SCOC members evaluate proposals for online and hybrid courses, the existing unit policy is modeled on the “Carnegie Unit” concept: one unit of credit for three hours of work by the student per week (Senate Regulation 760).  
Presented By: Chair Holton |
| Discussion/Action | IV. Draft Passed/Not Passed Policy Revision  
Issue: The current system, which requires students to decide on grade basis, before they know their grade, is unfairly biased to students who best understand the college system. It also disadvantages students who are unable to navigate complex grading schemes. Since many classes curve, it may be impossible for a student to know their current grade even after calculating the raw number score. Grading policies can vary significantly in schools and sections of the same course. This policy revision ensures that students have equal access to information when determining how to best use their P/NP allotment, regardless of professor policy. The draft policy is available as a Google Document and the link was shared via email.  
This is a draft policy and should not be discussed or released beyond the conversations with SCPA representatives until it has been vetted by appropriate stakeholders.  
Presented By: Chair Holton  
Proposed Action: Members will vote to approve or reject the proposed revisions. |
**Discussion**

V. **Social Ecology Assessment**

Issue: SCPA will begin to review a selection of assessments that can be submitted as examples to WASC. Social Ecology will be the first review.

Presented By: Chair Holton and Venette Van Duyn, Director, CAAR & Campus Assessment

**Action**

VI. **Economics Change to Major Requirements**

Issue: Economics submitted a request to modify their change of major requirements.

Presented By: Chair Holton

Proposed Action: Members will vote to approve or reject the proposed revisions.

VII. **Social Ecology Change to School Requirements**

Issue: Social Ecology has submitted a request to change their school requirements.

Presented By: Chair Holton

Proposed Action: Members will vote to approve or reject the proposed revisions.

VIII. **Adjournment**
