III. Revised School of Population and Public Health Pre-Proposal  
*Issue:* In September 2021, the Senate received a revised pre-proposal to establish a School of Population and Public Health from Dr. Bernadette Boden-Albala, the Director of the Program in Public Health and Founding Dean of the planned School of Population and Public Health. Following council reviews, Cabinet discussed the pre-proposal in November. While there continued to be strong support for a School of Population and Public Health, Cabinet did not support the revised pre-proposal. The Senate asked Public Health to address several issues in the next iteration of the pre-proposal.  

The Senate has received a newly revised pre-proposal to establish a School of Population and Public Health.
