   Schmitendorf, William (1941-2019)
   Stein, Larry (1931-2019)
INFORMATION 8. Announcements by Chair James Steintrager
9. Announcements by Other Administrative Officers
10. Reports of Special Committees
11. Reports of Standing Committees
12. Petitions of Students

INFORMATION 13. UCPath Update (4:30pm)
   Presented by: Debbie Kistler, Manager of Change, Communications, and Training for UCPath.

14. Unfinished Business
15. University and Faculty Welfare
16. New Business

James Steintrager, Chair
Academic Senate, Irvine Division

* Agenda items deemed noncontroversial by the Chair of the Divisional Senate Assembly, in consultation with the Senate Cabinet, may be placed on a Consent Calendar under Special Orders. Approval of all business on the Consent Calendar requires a single unanimous vote. At the request of any Divisional Assembly member, any Consent Calendar item may be extracted for consideration under “New Business” later in the agenda. (from Bylaw 158[D])

N.B. All members of the Academic Senate and of the University community shall have the privilege of attendance and the privilege of the floor at meetings of the Divisional Senate Assembly, but only members of the Divisional Senate Assembly may make or second motions or vote. However, the Chair (or designated representative) of a standing or special committee of the Division may move or second action on reports of that committee.

Note: For Senate updates, visit our home page: www.senate.uci.edu.

Representatives to the Divisional Senate Assembly may access the agenda materials by logging into the Senate Document Management System (DMS) using their UCInetID: https://dms.senate.uci.edu/~councils.and.committees/?Assembly.

JAMES STEINTRAGER, CHAIR
ACADEMIC SENATE

RE: Proposed Modifications to Bylaw 90

After review of the proposed modifications to Bylaw 90 by the Council for Equity and Inclusion, CRJ has verified and ensured conformity of the proposed changes with the format and content of the Code of the Academic Senate. The modifications include a conforming change of a position title as well as the changing of ex-officio, non-voting members of the Council.

If you have any questions, please do not hesitate to contact me.

Respectfully,

Scott Bartell, Chair
Committee on Rules and Jurisdiction

C: Kate Brigman, Executive Director
   Gina Anzivino, Assistant Director, CEI Analyst
   Brandon Haskey-Valerius, CRJ Analyst
   Louis DeSipio, CEI Chair
Chapter III: Organization
Section 5: Standing Committees
Bylaw 90. Equity and Inclusion, Council on
(En 7 Jun 18)

A. Membership
   1. The Council on Equity and Inclusion shall consist of at least eight voting faculty broadly
      representative of the existing Faculties of the Division (as defined by Irvine Bylaw 40) and the
      diversity of the community it serves.
   2. The Vice Provost, Academic Vice Chancellor for Equity, Diversity & Inclusion and the
      Vice Provost, Academic Planning, Academic Personnel shall serve as ex officio, non-voting
      members.
   3. An undergraduate and graduate student representative shall be invited to sit on the council.
   4. A representative from the Office of Institutional Research shall serve as a consultant.
   5. Appropriate administrative officers and staff members may be invited to serve as consultants.

B. Duties
The Council shall advise the Division on matters related to equity, inclusion, and diversity.

   1. Confer with Academic Senate bodies and other campus entities, including but not limited to the
      Academic Planning Group, the Council on Academic Personnel, the Graduate Council, the
      Council on Educational Policy, the Council on Teaching, Learning, and Student Experience, and
      the Council on Faculty Welfare, Diversity and Academic Freedom.
   2. Confer with and advise the Chancellor and Executive Vice Chancellor and Provost on matters of
      equity, inclusion, and diversity.
   3. Further campus accountability related to equity, inclusion, and diversity by receiving and
      commenting on reports related to the Council’s charge. These reports shall include data from
      Schools and the Campus on recruitment, advancement, and retention of faculty and parallel data
      on undergraduate and graduate students (including but not limited to Academic Program
      Reviews, Climate Surveys, and Inclusive Excellence Data on Accountability and Assessment).
      The Council will also proactively request institutional research related to its charge and make
      recommendations based on such research.
   4. Assess policies and practices related to advancing equity, inclusion, and diversity at UCI.
   5. Initiate action by recommending changes of policy or practice.
   6. Make recommendations to appropriate campus entities to advance UCI’s commitment to equity,
      inclusion, and diversity.
   7. Report regularly to the Irvine Division of the Academic Senate on matters under consideration.
   8. Maintain liaison with the University Committee on Affirmative Action and Diversity.
October 16, 2019

JAMES STEINTRAGER, CHAIR
ACADEMIC SENATE, IRVINE DIVISION

RE: PROPOSED MODIFICATIONS TO BYLAW 90. EQUITY AND INCLUSION, COUNCIL ON

At its meeting of October 14, 2019 the Council on Equity and Inclusion voted to amend Bylaw 90. Equity and Inclusion, Council on, A. Membership. Members approved by a vote of 9-0-1 the removal of the Vice Provost, Academic Planning and the addition of the Vice Provost, Academic Personnel as ex officio, non-voting members. Council members determined that this change is in line with its charge since many of the issues to be addressed by the Council – such as recruitment and retention of diverse faculty, and uneven distribution of service amongst junior faculty - are related to Academic Personnel more so than Academic Planning. Members agreed that it would be helpful to invite the Vice Provost, Academic Planning to attend certain meetings as a guest.

Respectfully,

Louis DeSipio, Chair
Council on Equity and Inclusion

C: Jeffrey Barrett, Chair Elect-Secretary, Academic Senate, Irvine Division
Kate Brigman, Executive Director
Gina Anzivino, Council on Equity and Inclusion Analyst
Brandon Haskey-Valerius, Senate Cabinet Analyst
Dr. Deepak Bhalla earned degrees in Biology and Cell Biology from Punjab University and a PhD in Cell Biology from Howard University, and was a postdoctoral fellow at Harvard University. He was a well-respected colleague and educator. His research in the area of pulmonary toxicology opened up new ideas in the role of air pollutants in impairing the tight junctions between cells that provide the barrier protecting the lung from fluid infiltration. He was Associate Professor of Community and Environmental Medicine at UC Irvine from 1986-1995. He left UC Irvine to join the College of Pharmacy and Health Sciences at Wayne State University in Ohio as Professor in 1995 and was appointed Dean of the College in 2016. Deepak Bhalla died at the age of 71 on March 16, 2018 in Grosse Pointe, Michigan.

Michael Kleinman, Adjunct Professor
Community & Environmental Medicine, UC Irvine

Ulrike Luderer, Professor
Medicine, UC Irvine
IN MEMORIAM

C. Ron Huff
Professor of Criminology, Law & Society
UC Irvine
November 10, 1945 – March 31, 2019

C. Ron Huff, passed away on March 31, 2019 in San Clemente, California. A long-time professor in Criminology, Law and Society at the University of California, Irvine and at the John Glenn College of Public Affairs at The Ohio State University, Ron served as Dean of the School of Social Ecology at UCI and Director of the John Glenn College at OSU, where he also served as Director of the Criminal Justice Research Center.

Ron began his interest in the field working in corrections in Ohio, after receiving a MSW degree from the University of Michigan. He earned a doctorate in sociology from Ohio State in 1974, studying criminology with Sy Dinitz. After teaching at UC Irvine and Purdue, Ron returned to Ohio State, where he produced a distinguished body of research and established himself as a great academic administrator. He came to UC Irvine in 1999 to lead the School of Social Ecology, which he did for more than a decade, before returning to the faculty to focus full-time on his teaching and scholarship. He continued to produce impressive scholarship and undertake innovative teaching (such as creating an online course that quickly became a favorite).

Ron’s scholarly legacy includes at least three major lines of influence: formative work on the idea and importance of wrongful convictions, research and policy recommendations about youth gangs, and a career-long dedication to the obligations of the public university in scholarship and education about pressing issues of policy.

Ron was one of the first scholars to emphasize the problem of wrongful convictions and his early work along these lines helped bring research and scholarship on miscarriages
of justice into the center of criminology and public policy debates. He began researching and writing about innocence among the convicted before most believed that systematic research on the topic was a realistic possibility and when most policy-oriented research in criminal justice was focused on crime reduction and prevention. His books (*Convicted but Innocent* with A. Rattner, and E. Sagarin and *Wrongful Conviction* with Martin Killias) are foundational to the field.

Ron’s scholarship has stimulated an extensive amount of academic and policy work on theory and research about gangs. Ron and his colleagues used multiple methods to study gang formation and behavior, to assess police and other intervention methods and to analyze official gang definitions and recording of gang members. His three edited volumes, *Gangs in America*, brought foundational research to the field.

In all, Ron authored a dozen books and over 100 journal articles. He was a Fellow of the American Society of Criminology and served as President of the American Society of Criminology, and on dozens of committees and councils of the ASC. His many honors included the Donald Cressey Award from the National Council on Crime and Delinquency, the Paul Tappan Award from the Western Society of Criminology, the Herbert Bloch Award and the August Vollmer Award from the American Society of Criminology, and the Gerhard O.W. Mueller International Award from the Academy of Criminal Justice.

Ron served tirelessly as a consultant to national and state agencies and courts about innocence, gangs, youth violence, and public policy, such as the U.S. Senate Judiciary Committee, the F.B.I. National Academy, and the American Bar Association committee on wrongful convictions. In retirement, he continued to offer his expertise to those working in the criminal justice system who sought to understand gangs, prevent miscarriages of justice, and otherwise ensure that public policy and practice ensured justice.

At UC Irvine, Ron led the School of Social Ecology for ten years. He became well known for asking three questions: What’s good for the public? What’s good for the University of California? And, what’s good for the School of Social Ecology? With these questions as his guide, he served the public, UCI, and Social Ecology exceptionally well. As he did so he became known for his fundamental decency and his daily acts of kindness. With his leadership, we maintained and further strengthened a "culture of civility" in our School. The tie that binds Ron’s scholarly interests together with his administrative contributions was his belief that basic research is essential for sound public policy and that public universities have an obligation to learn and to teach about how vital that connection is.

At UCI, Ron was widely and justifiably admired by his faculty, and by his colleague deans and vice chancellors, for fairness and decency in administration. And in every way--in his scholarship, in his teaching and in his stewardship of the university--Ron
was driven by the highest standards of excellence. His great optimism and sense of humor were unfailing. For these and so many more reasons, he will be greatly missed. Ron is survived by his wife of 51 years, Patricia Huff, and by daughters Tamara Connor (and Michael) and Tiffany Huff and by granddaughters Skylar and Hazel. All of us recall a conversation with Ron that inevitably came around to a loving comment about one or another family member; one quickly understood that his family meant the world to him.

Michael Gottfredson, Professor
Criminology, Law & Society, UC Irvine

Valerie Jenness, Professor
Criminology, Law & Society, UC Irvine

Cheryl Maxson, Professor
Criminology, Law & Society, UC Irvine

Carroll Seron, Professor Emeritus
Criminology, Law & Society, UC Irvine
IN MEMORIAM

John Charles Longhurst
Professor of Medicine
UC Irvine
March 18, 1947 – February 6, 2018

John Longhurst, MD, PhD, came to UCI in 1990 as professor of medicine and chair of the Department of Medicine.

A cardiologist who specialized in cardiovascular disease and prevention, John was an NIH-funded researcher whose primary focus was investigating the neurophysiological basis of acupuncture. His work helped deepen the understanding of acupuncture as a clinical tool to help lower blood pressure and treat hypertension.

As chair of the Department of Medicine, John was instrumental in adding the American Board of Internal Medicine Research Pathway program to integrate research and training for residents interested in developing skills as physician-scientists.

Many current members of our internal medicine faculty have benefitted from participation in this track.

In 2003, he became the director of the Susan Samueli Center for Integrative Medicine, merging his clinical commitment to prevention and wellness with his research interests.

An excellent clinician and researcher of distinction, John will perhaps best be remembered as a committed and thoughtful mentor whose influence touched undergrads, graduate students, residents and fellows as well as staff and faculty colleagues.

Alpesh N. Amin, Chair and Professor
Medicine, UC Irvine
IN MEMORIAM

Daniel Menzel
Professor and Chair of Community and Environmental Medicine
UC Irvine
September 27, 1934 - June 3, 2018

Daniel B. Menzel was Professor and Chair of the Department of Community and Environmental Medicine, University of California, Irvine until his retirement in 2000. Prior to coming to UC Irvine he was Professor in the Department of Pharmacology at Duke University. He had more than 30 year’s research experience in air pollution and toxicology. His expertise centered in two areas: mechanisms of air pollutants in the respiratory tract. During his career, he served as a senior author on multiple US Environmental Protection Agency (EPA) Criteria Documents, as a consultant to the USEPA Clean Air Scientific Advisory Committee, and was a leading developer of the first Particulate Matter Criteria Document and subsequent National Ambient Air Quality Standards.

Michael Kleinman, Adjunct Professor
Community & Environmental Medicine, UC Irvine

Ulrike Luderer, Professor
Medicine, UC Irvine
IN MEMORIAM

William E. Schmitendorf
Professor of Mechanical and Aerospace Engineering
UC Irvine
August 6, 1941 – May 15, 2019

Professor William E. Schmitendorf, Ph.D., a professor in the Department of Mechanical and Aerospace Engineering, passed away on May 15, 2019, after a long illness.

He was a highly respected scholar, teacher, and academic leader. He made seminal contributions to the field of control theory. This includes, but is not limited to, profound contributions in differential games, robust control, optimal control, and applications to seismic response control. His career spanned over forty productive years, first at Northwestern University, from 1967 to 1988, and later at UCI, from 1988 to 2010.

Professor Schmitendorf was a caring teacher and mentor and a strong academic leader. He served as the Chair of Applied Mathematics at Northwestern and the Chair of Mechanical and Aerospace Engineering at UCI, where he also served for nearly a decade as the Associate Dean for academic affairs.

He will be remembered, and missed, for his wry sense of humor, his joy of all things baseball, and his insight during college basketball post-season bracket selection. Most of all, he will be missed for his profound decency, friendship, and integrity.

George Leitmann, Professor Emeritus
Engineering Science, UC Berkeley

B. Ross Barmish, Professor
Electrical and Computer Engineering, University of Wisconsin-Madison

Faryar Jabbari, Professor
Mechanical & Aerospace Engineering, UC Irvine

DMS 14 - Item 2-7
Larry Stein, first and foremost, was a scientist. His primary interest was the neurochemical mechanisms responsible for behavior. His forte was creating experiments to identify basic mechanisms of action for various behaviors, often with an emphasis on reward, and he had the foresight to be one of the first to publish in several important related areas.

After receiving his B.A. in 1952 from New York University he went to the University of Iowa to get his Ph.D. (1955) under the supervision of Kenneth W. Spence, one of the most prominent experimental psychologists at the time. The deep understanding of behavior he obtained served him well as he expanded his research into neuropharmacology and beyond. During his postdoctoral training at Walter Reed Army Institute of Research he used the newly discovered electrical brain self-stimulation technique to evaluate the effects of drugs on reward systems in the brain of animals. He devised a method to determine brain self-stimulation reward thresholds that is still used today to evaluate the rewarding effects of drugs. He also showed that drugs that modified brain catecholamines had differential effects on brain self-stimulation and related these effects to reward, depression and other brain dysfunctions.

In 1959 he became Head of the Department of Psychopharmacology at Wyeth Laboratories and during his 20-year stint he played a crucial role in the development of the antianxiety therapy, lorazepam (Ativan) and published extensively on the neuropharmacology of reward, punishment, learning, memory, depression and anxiety. In the late ‘70s Stein published in Nature the first behavioral reports confirming the analgesic (1976) and rewarding (1977) effects of the recently discovered enkephalins. He
followed this up with numerous publications on the role of brain endorphins in reward, memory and learning.

Larry moved to UCI in 1979 and was appointed chair of the Department of Pharmacology to rejuvenate and expand the department. During his tenure he hired numerous faculty members in the areas of cardiovascular function and neuropharmacology. In the ‘80s Stein started a research project exploring cellular mechanisms of reward. This novel research showed that single brain cells could be operantly conditioned by selective application of catecholamines and certain drugs of abuse, but not other neurochemicals. Later he proposed that operant conditioning of single cells might represent the substrates of the crucial “atoms of behavior” described earlier by B.F. Skinner as necessary for operant learning.

Throughout his career Larry received a number of awards, served on numerous editorial boards, held offices in professional societies, was a scientific advisor and consultant for several drug companies, and participated on numerous university committees. He supervised numerous graduate students and he held 3 patents. Larry had a good heart, was loyal to his friends, and vigorously supported his faculty members and students. But in the end, the thing he valued most was his continuing contribution to the scientific understanding of the neurochemical basis of behavior.

James D. Belluzzi, Adjunct Professor
Pharmacology, UC Irvine

Olivier Civelli, Professor and Chair
Pharmacology, UC Irvine
IN MEMORIAM

Jeremiah G. Tilles
Professor of Medicine
UC Irvine
March 10, 1932 – January 2017

Dr. Tilles arrived at the University of California, Irvine (UCI) School of Medicine in 1971 as chief of the Division of Infectious Diseases. He later created the Infectious Diseases fellowship and continued to mentor fellows as an attending for three decades.

In 1974, he became the institution's second chair of the Department of Medicine and held the position until 1991, when he became associate dean for students. He subsequently became associate dean for clinical faculty. He served as governor of the ACP Southern California Region II Chapter from 1984 to 1988.

Dr. Tilles served as chairman of ACP’s Government Liaison Committee for many years and is the namesake behind ACP’s annual Tilles Award, which recognizes physicians who foster education, career growth, and innovative programs. Dr. Tilles will be remembered as an outstanding and much-loved teacher, clinician and administrator whose mark will long be felt here at UC Irvine and in the American College Physicians.

Alpesh N. Amin, Chair and Professor
Medicine, UC Irvine
